

IPWS SERIES

Vulcan™ Series 1080P Interior Windshield Cameras

CAMERA FEATURES ▼

Capturing IP clarity of the exterior front of the vehicle, the IPWS Windshield Camera is mounted to the interior surface of the windshield. The lens is equipped to optimize light for image capture and can be adjusted at installation for the ideal angle. The IPWS Windshield Camera captures the view through the windshield and audio inside the cab to provide evidence of what really happened on the road. The IPWS is compatible only with Vulcan Series Hybrid Component™ HCNVRs.

IPWS SERIES TECH SPECS ▼
