- » Built-in Wi-Fi module
- » H.264/H.265 compression
- » Patented Hybrid Component Technology
- » 5-year limited warranty
- » Engineered specifically for mass transit

« TOTAL CONTROL

Diagnose and operate the V1202HC with the optional Vulcan CP4 Touchscreen Backing and Firmware Control Monitor. Using the monitor's 7-inch touchscreen display, with customized password protection, the user can view and update the MNVR's firmware and other settings and view recorded video. When the monitor is in live view mode, the user can select the number

of channels displayed, depending on the number of cameras installed on the vehicle. In backing mode the monitor displays a live view of the vehicle's reverse camera, if applicable. This versatile tool also integrates SMS and voice broadcast to make calls, IP connections and two-way audio broadcasts.

TOTAL EASE OF USE »

Video playback and archiving are simple with FlexPlay Pro 8™ software. With minimal clicks to login and view video recorded last, this user friendly tool also features an easy-navigation timeline and trouble-free archiving. FlexPlay Pro 8 is included with the purchase of every Vulcan MNVR.

DRIVER-OPERATED PANIC BUTTON

Alerts, triggered by the driver-operated panic button or one of eight configurable alarms, automatically mark video for supervisor review during playback. The panic button, included with every Vulcan Series MNVR and installed within easy reach on the driver's console, is an inconspicuous tool the driver can use to mark the video at the time and date of an incident occurring on the vehicle. The panic button also functions as a remote status indicator for the MNVR. A solid green LED indicates the unit has power and is recording without using a video monitor.

WARRANTY

We stand behind the Vulcan™ Series V1202HC by offering a five-year parts and labor warranty that is unmatched in the industry, and from first contact to warranty fulfillment, AngelTrax provides unparalleled customer service and support.

ANGELTRAX SUPPORT

Reliable and efficient, our specialized team of engineers and technicians resolve most product issues during the initial phone call or email conversation. All customer service is conducted by AngelTrax and not outsourced to a third party.
